Dominion Will Not Contribute

Health Unit Abandons Fly Spraying Program

The Foothills Health Unit plan to purchase a spraying machine for use in fly and insect control within the Unit has had to be abandoned owing to the refusal of the Dominion government to contribute to the cost of such a machine. This decision was made at the regular meeting of the Health Unit Board held in High River on April 30.

Plans for a comprehensive fly and insect control program had been outlined at the last board meeting but without the use of the machine no spraying will be done this year at least.

Dr. Ball advised that there was a possibility of one of the nurses at present on the staff leaving the employ of the Unit and the matter was left in his hands to adjust and have approved at the next meeting of the Board.

The Board was advised that it was proposed to hold a meeting of all Health Unit Boards and Medical Officers of Health in Red Deer shortly and approval was given that the Chairman and Medical Officer of Health attend such meeting if possible, all board members to be notified of the meeting date when same had been set.

Considerable correspondence was dealt with pertaining to the Vulcan Office, low-rate licence plates for Unit cars, plumbing regulations and inspections, etc.

The Board was advised that no reply had been received to letter sent to the Department of Health, asking for Grant on the fourth Nurse employed by the Health Unit.

Accounts as paid by cheque totalling \$7,318.75 for the period January 1st to March 31st, 1952, were approved.

Statements of receipts and disbursements for the period October 1st, 1951 to March 31st, 1952, were considered and approved, bank balances being shown as \$25.15 in the General Account and \$747.60 in the Depreciation Reserve Savings Account.

The application of Mr. John H. Cope, High River, for the position of Auditor was accepted, yearly audit to be made.

Members of the Board present being Messrs. J. H. Sutherland, C. A. Waltham, W. D. Allan, D. McNiven, and G. K. R. Nelson, together with Dr. G. H. Ball, Medical Officer of Health and John W. Donald, Secretary.

The Weather

Fine, dry spring weather still prevails in this area. A heavy shower of rain Saturday night settled the dust but did not hold up seeding and harvesting operations to any extent.

Many farmers have now finished the spring harvest, others still have fields and parts of fields too wet to do, and still others have been unable to combine at all and have concentrated on seeding operations.

Lomond area, where harvest was practically completed last fall, reports that seeding should be finished this week.

Flor. Nightingale Was Founder of Nursing Profession

The birthday of Florence Nightingale, founder of the nursing profession as it is known today, and one of the most extraordinary Englishwomen in history, is marked May 12.

Not only is Miss Nightingale known for her own works, but for the work she inspired, the Red Cross. In 1872, after the Franco-Prussian war, Henri Dunant visited London to read a paper on the work of the Red Cross. His first words were as follows:

"Though I am known as the founder of the Red Cross and the originator of the Convention of Geneva, it is to an Englishwoman that all the honor of that Convention is due. What inspired me... was the work of Miss Florence Nightingale in the Crimea."

Much of what today is considered good basic Red Cross program originated in the brain of this remarkable woman whose actual association with the Red Cross was limited.

In her memory, the International Red Cross awards the Florence Nightingale medal, the world's highest honor conferred upon a nurse.

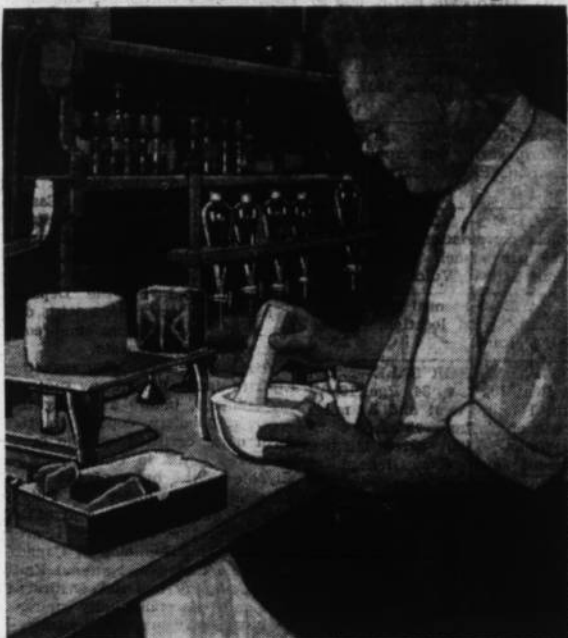

The Crimean War gave Miss Nightingale her great opportunity to win world-wide fame. While the British soldier fought with heroism, he was the victim of official neglect. Because of red tape, stupidity and callousness, British soldiers died by the thousands from "dysentery, scurvy, starvation and exposure." Life in and around barracks was indescribably revolting, and hospital life was even more dismal because the sick and wounded were robbed of a fair chance of recovery. During her two years in the Crimea, 1854-5, Miss Nightingale suffered "Petty jealousies, treacheries and misrepresentations." Her enemies were not only surgeons and politicians, both civil and military, but most of the nurses she had brought from England.

But the soldiers worshipped her. She could make them stop drinking, give up bad language, write home to their wives and submit them to pain. "She would speak to one and nod and smile to as many more... we could kiss her shadow as it fell and lay our heads on the pillow again content."

Miss Nightingale emerged from the Crimea as an heroine to begin life for the betterment of the nurse and the soldier. Indeed, Miss Nightingale had stamped the profession of nurse with her own image and one of her greatest monuments is the nursing profession itself.

All successful individuals have become such by hard work; by improving moments before they pass into hours, and hours that other people may occupy in the pursuit of pleasure. —Mary Baker Eddy.

U.N. Works to Control Narcotic Drugs

The United Nations keeps an open eye on word production and consumption of narcotic drugs and on their traffic. Through its Commission on Narcotic Drugs, U.N. considers reports from governments on their observance of international treaties on drug control, on illicit traffic and on seizures in their territories. The Commission is now considering measures to limit opium production and its use to scientific and medical purposes. Charles C. Fulton, head chemist of the U.N. Division of Narcotic Drugs, is seen here in his laboratory trying to determine the origin of some seized drugs.

Fire Chief Explains Use of Device

Inhalator Always Ready For Use in Emergencies

Much interest was shown in the talk and demonstration given by Fire Chief Jim Shortt at the May 1 meeting of the Vulcan group of the St. John's Ambulance Association.

Mr. Shortt explained the use of the H. H. Inhalator purchased jointly by the Lions Club and the Town of Vulcan for local emergency use. This valuable life-saving device is portable and is kept on the fire truck in the winter and at the swimming pool during the summer months.

It consists of two cylinders of carefully mixed oxygen and carbon dioxide (93 per cent oxygen and 7 per cent carbon dioxide for stimulus) and is fitted with both adult and infant mouth-pieces so it can be fastened over the patient's mouth and nose without hampering any other life-saving measures.

An accessory to be used in conjunction with the inhalator could be lowered into a well, used in a car or, in the case of a man suffering from electric shock, could be taken to the victim.

Whenever there is a need for this apparatus a call should be made to the fire department, but in summer the nature of the need should be explained so that the inhalator is picked up and placed in capable hands. Every member of the fire department is trained in the use and operation of the inhalator.

Safety Patrols At Work; List Traffic Offenders

Members of the school safety patrol have reported that the drivers of cars and trucks (of which numbers are listed below) were observed breaking traffic laws in town last week.

Those listed below all committed the same offence of failing to stop at stop signs. Licence number, day and time of offence are shown.

"Very Encouraging Showing"

Shell-C. & E. No. 1 Wildcat Strikes Oil Flow 10 Miles West of Vulcan

Shell-C. & E. No. 1, a deep-test oil well 9 miles west of Vulcan, has struck a "very encouraging showing" of oil in the Madison lime and will continue drilling deeper in search of other productive zones.

Through the courtesy of Carl Nickle's Daily Oil Bulletin, "the Advocate has been furnished with the results of two drill-stem tests made this week.

Initial drillstem test in the Madison interval 6,653 to 6,676 feet gave a blow, with one hour pipe recovery consisting of 180 feet of 33 degree API crude oil and 180 feet of oil and gas-cut mud. Bottom hole flowing pressure was 500 to 700 p.s.i., while shut-in pressure was 2,700 p.s.i.

Second test in the formation was run from 6,658 to 6,691 feet for 75 minutes. There was a good air blow to the surface in five minutes, with an unmeasured gas flow in 15 minutes. Fluid recovery consisted of 720 feet of oil, 90 feet of oil and gas-cut mud, and 1,440 feet of sulphurous water. Flowing pressure was 550 to 1,000 p.s.i., while shut-in pressure was 2,700 p.s.i.

The well was originally planned a deep test to 9000 ft. and it is understood that drilling will continue to that depth or possibly to the Devonian, which might be close to 10,000 ft. Hole is now bottomed at 6,777 feet.

History of District Is W.I. Project

The May meeting of Thigh Hill W.I. was held at the home of Mrs. Thora Burrell, Thursday, May 1, when 22 of the 25 members were present. There were also four visitors in attendance.

Roll Call was answered with "A Tree I Remember."

After some discussion it was decided to discontinue work on the Tweedsmuir History and concentrate, instead, on a history of the district.

Mrs. Mavis Roebuck was named as secretary to the Rest Room, from the Thigh Hill branch.

A splendid paper on Canadian Industries and Agriculture was given by Mrs. Roberta Davis, and much enjoyed.

Prizes were presented to the Oldest and Youngest mothers present, in observance of Mother's Day, with Mrs. Guy Volsey receiving the first one and Mrs. Victor Rushfelt that for the young mother present.

An appropriate poem was read by Mrs. Ruth Orchard, and the tea draw was won by Mrs. Lillian Deal.

A delicious lunch was served by the hostess assisted by Mrs. Laura Houlton. A birthday cake was served in honor of Mrs. Gwen McKay, Mrs. Isla Lundgren and a visitor, Mrs. Dorothy Mansfield of Grand Prairie.

Town Planning Should Not Be Neglected, Says Association

Community planning week, May 9 to 24, has two objectives.

The general aim of this special week is to call public attention to the value and necessity of town planning being carried out in towns with a view to improving them from the standpoint of convenience, comfort and beauty.

The specific aim of this special "week" is to arouse interest in such communities as Vulcan towards the setting up of some form of local planning organization. A well-planned town doesn't just "happen;" citizens must themselves become interested in planning. With its zoning laws, Vulcan has made a step in the right direction, but here are a few questions, suggested by the Community Planning Association of Canada, that residents might ask themselves:

1. Have we any definite plans to take care of the future physical growth of our town?
2. Is there anything we can do to correct things which have not been wisely planned?
3. Are we setting aside suitably located and large enough areas for future industrial and business development—for schools, parks, playgrounds, public buildings?
4. Are we doing anything about

"Open House" At Local Hospital Monday, May 11

Monday, May 12, the anniversary of Florence Nightingale's birthday, will be observed throughout the nation as National Hospital Day. On this one day of the year, citizens are asked to give special thought to the work of their community hospital, the public service institution whose doors are never closed.

National Hospital Day will be marked on the national level by several broadcasts over the CBC networks, including one program featuring the Minister of National Health and Welfare. It will be proclaimed as a special day of observance by mayors and municipal councils from the largest cities down to the small communities.

Hospitals are anxious that no questions in the mind of the public regarding their operation and facilities should be left unanswered. The service they offer is one which touches the average citizen only in his hour of greatest need; and for that reason most persons are not as familiar with its scope as with that of other public services such as the schools.

In this community, the management and board of Vulcan Hospital are planning "open house" on May 12th. All members of the public are cordially invited to inspect the hospital's building and facilities between 2 and 3.30 in the afternoon.

Vulcan Girl Is Married At Coast

A quiet wedding of local interest was solemnized at Nanaimo, B.C., April 4th, when Miss Helen Grace Dunham, youngest daughter of Mr. and Mrs. Clare Dunham of Vulcan, was united in marriage with Mr. Stanley Thomas, son of Mr. and Mrs. Albert Thomas, of Nanaimo, in a double ring ceremony performed by Rev. Moses.

The bride, who was given in marriage by the father of the groom, wore a pastel blue suit, with matching accessories. Her corsage was of white violets and she carried a white prayer book. Mr. and Mrs. A. Steele accompanied the bride and groom as matron of honor and best man.

Following the ceremony a reception was held at the home of the groom's parents. After a honeymoon spent in Vancouver, B.C. the young couple have taken up residence in Nanaimo.

The depression was that period when they didn't have any million dollar burglaries.

Rev. Peter Dawson Again Nominated As S.C. Candidate

At the Social Credit nominating convention of Little Bow provincial constituency, held in Vulcan, Wednesday afternoon, May 7, Rev.

Peter Dawson of Champion, M.L.A. for Little Bow and Speaker of the House in the provincial legislature since 1935, was again named to contest this seat in the provincial election to be held this year.

Mr. Dawson is minister of the United Church at Champion and was the unanimous choice of the delegates attending the meeting.

Also present at the nominating convention and guest speaker at a public meeting held Wednesday night was Hon. Gordon Taylor, Minister of Highways and Telephones in the provincial cabinet. A full report of this meeting will be carried in the next issue of the Advocate.

Former Resident, 'Johnny' Dahl Dies

A resident of Vulcan for several years prior to the war, when he was employed at the Vulcan Municipal Hospital, Jann Homer Dahl, aged 43, died on Saturday, May 3, in the Colonel Belcher hospital at Calgary following a lengthy illness.

Mr. Dahl was born in Norway and moved to Alberta 30 years ago. He joined the Royal Canadian Engineers in 1941 and was still in the service at the time of his death.

Besides his wife, Julia Marie, he is survived by a daughter, Mrs. Jack Deans Jr. of Vulcan; a sister, Mrs. Donald Gaunce of High River; two brothers, Elias of Long Beach, Calif.; and Rangvold of Scotsburg, Sask.; and four sisters and three brothers in Norway.

Canon W. H. Morgan officiated at services in the McInnis and Holloway Funeral Home on Tuesday at 3:30 p.m. Interment was made in the Field of Honor, Burnside Cemetery, Calgary.

Mr. Howard J. Rosebrugh has been promoted to the position of General Sales Manager of the Dodge-DeSoto Division of the Chrysler Corporation of Canada, Limited, according to an announcement made to-day by Mr. A. J. Shaw the Corporation's Vice-President in Charge of Sales. Mr. Rosebrugh assumes his new duties on May 1st.

Salvador Dali Visits U.N. Headquarters

Among the distinguished visitors to United Nations Headquarters in New York last month was the Spanish born artist, Salvador Dali, shown here being interviewed by Jeff Sparks of the United Nations Radio. The interview was broadcast by U.N. Radio in its English-language shows "The United Nations Today" and "Spotlight." Mr. Dali, who has lived in Paris for 20 years, also took part in U.N.'s French and Spanish language broadcasts.

Mother Nature Smiles

An April such as we have just experienced, with its bright sunshine, warm days and drying winds, is unusual enough to warrant comment.

What would have been the situation on farms if this past month had followed last year's pattern of snow and rain? One or two normal April rains this spring would have created havoc, with two-thirds of last year's crop to be harvested and the land so water-soaked that even today, after a month of dry weather, many fields are still too wet and soggy to give footing to the heavy power machinery used in modern farming.

Mother Nature has treated us right this spring. It looks like last year's crop will, after all, be salvaged. True, it is low-grade, it is light and harvesting it is a darn tough job, but it is still wheat and worth money.

And if Mother Nature will just keep smiling for another two or three weeks the new crop might get seeded without too much trouble. Then we can relax a bit and say, "Gosh, it's been a good spring."

Why Not Paint a Clear Picture

(Camrose Canadian)

There is a group of people who are trying to convey the rural electrification picture in Alberta. They are undoubtedly sincere in their desire to make the utility a publicly owned affair. They use comparisons between Alberta and Manitoba and between Alberta and Saskatchewan to entice the Alberta farmers under their wing. It is true that Manitoba builds the lines direct to the farm to be served and that there are 27,000 farms already electrified in Manitoba. It is also true that the Manitoba Power Commission owes the Provincial Government the sum of \$35,000,000 with an addition of \$10,000,000 under authorization and not yet expended. This part of the story is never mentioned from the public platform. And another thing, Manitoba has had a surplus of power since 1910 and has been in the rural electrification picture for twenty years. Likewise, the Saskatchewan Power Commission owes the Saskatchewan Provincial Government \$41,000,000. This province has made no bones of its inability to construct free rural lines to farm premises. Saskatchewan is not so fortunately situated as either Manitoba or Alberta in the matter of power resources. She has few hydro potentials near to present centres of population. Should Alberta decide to make power a publicly owned utility at the present time, the Province would be required to assume an additional bonded indebtedness of \$100,000,000. As far as rates go at the present time, Alberta customers enjoy rates as low as Manitoba and lower than Saskatchewan and are not carrying any of the bonded indebtedness as an indirect charge against the utility. Another interesting feature of the argument is that Manitoba's 27,000 rural installations are confined within a geographic area of less than one third the area in Alberta from the Edmonton district south to the international border, eliminating the Peace River area entirely.

A New and Tough Profession

(Lacombe Globe)

Now that the school year is well advanced and before the term is completed, it would be well to pause for a moment and doff our hats to a man in a comparatively new profession—the school bus driver. With the trend toward centralization, more and more buses are being used to transport children, and consequently the importance of a good bus driver is being better recognized.

Not only must the harried bus driver contend with the roads, snowdrifts in winter, and goosy mud as the frost leaves the ground in spring. He has a schedule to maintain almost to the minute—for students who tramp varying distances from the farm to the roadside, and a few minutes can seem like hours in vicious below zero weather. He is usually a good mechanic, able to keep his bus running despite daily wear-and-tear. He also learns to handle groups of noisy children, as many as forty or fifty in the bigger vans.

Most of our Johnnies and Judys are pretty good kids individually. But "crowd psychology" tends to assert itself as more and more pupils board the bus at each stop, and their numbers grow. The babble and din of voices increases. And the eye must be cocked for trouble, for since these youngsters are used to the wide open spaces around the farm, the confines of a bus—even for a comparatively short time—make for a volatile atmosphere, ready to explode and burst at

TENDERS FOR COAL

(Western Provinces)
SEALED TENDERS addressed to the undersigned and endorsed "Tender for Coal for Western Provinces" will be received until 3 p.m. (E.D.S.T.), Wednesday, May 28, 1952, for the supply of coal for the Federal Buildings and Experimental Farms and Stations, throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from the Chief of Purchasing and Stores, Department of Public Works, Ottawa, the District Resident Architect, Winnipeg, Man.; the District Resident Architect, Saskatoon, Sask.; the District Resident Architect, Calgary, Alta.; and the District Resident Architect, Victoria, B.C.

Tenders should be made on the forms supplied by the Department and in accordance with department specifications and conditions attached thereto.

The Department reserves the right to demand from any successful tenderer, before awarding the order, a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds, and a certified cheque, if required to make up an odd amount.

By order,
ROBERT FORTIER,
Acting Secretary,
Department of Public Works,
Ottawa, April 29, 1952.

Feeding Wheat To Livestock

A recent survey by the Dominion Bureau of Statistics indicates that around one million bushels more wheat will be fed to livestock in Alberta during the crop year 1951-52 than in the previous year. The estimate is that 9,100,000 bushels will be fed during the current period as compared with 8,000,000 bushels in the past crop year.

A. J. Charnetski, Livestock Supervisor, Alberta Department of Agriculture points out that the lower grade wheats have always had a place in livestock feeding. Research workers have shown that a mixture of wheat, oats and barley results in more economical gains than either oats or barley. Wheat as a feed is valuable from the stand-point of higher protein content than these other two grains. In addition, the wheat germ provides a valuable source of Vitamin E, the anti-sterility vitamin. As far as sheep are concerned, there is strong experimental evidence that lack of Vitamin E may often be the cause of stiff lamb disease.

Whatever type of grain is fed, don't overlook the need for mineral supplements, advises Mr. Charnetski. Swine particularly need this addition of minerals to provide a well balanced ration.

Planning Makes Spring Cleaning Easier

Spring is a wonderful time of year. The snow and slush of winter are fast disappearing—the air is warm and full of life—everywhere there's a feeling of light-heartedness and hope. It's catching for people are made that way. Nature is casting off the heavy garments of winter and regarding herself in the light, bright colors of a new season.

Everyone likes this feeling of change—this desire for newness. That's why Easter bonnets and new clothes occupy the Canadian housewife—why John Canuck reads the new automobile catalogues—and Junior decides he'll quit school and ship out on a cattle boat.

Spring is also a time for work. Your house, the place where you live—should receive its share of care and newness.

Spring cleaning is an institution,

and unhappily all too often a chore. It needn't be. Sure, it's work and hard—but cleverly planned, there can be that sense of accomplishment that makes any job worth doing.

How to attain that? Well, planning helps a great deal. Make what soldiers call an appreciation of the situation. Calculate the work you have before you, the time you have, the money you want to spend, the helpers you'll have available. Take into consideration all the factors and then make your plan.

A system is good. This way, you are less likely to find yourself confused, muddled, and in a bad humor of the type that makes spring cleaning the chore that everyone wants to avoid. And if the men of the house haven't gone fishing, this is a good phase of the operation to get them in on.

Repairs are the first problem. Make a list of all the loose hinges, and sticky windows, and leaky taps, and all the other little things that usually need fixing after a long winter. Then plan your own small clean-up campaign. Take the house room by room, or floor by floor.

Soap and water and elbow grease will be your main standbys—but there'll be dull spots where a new touch of color is needed to rhyme with the lightness of spring.

Before you paint make sure that the surface on which you are working is clean. New paints go on easily and have such covering quality that is a temptation to cover over former dirt and defects. This can only lead to poor results, without lasting quality. Dirt and paint will not mix. Neither will paint go over wax. Wax must be completely removed before the new finish can be applied successfully. Use turpentine or buy a good commercial wax remover and apply with diligence, before you carry on with your paint job.

If you are mixing your own colors, add your deep colors to white very gradually. Never take a deep color and try to reduce it with white to a pastel as this course will probably find you left with many more gallons of paint than you require.

Washing your dishes with hair shampoo sounds silly, but it's no sillier than using an exterior paint

for interior walls, or a wall coating on the floors. Paint manufacturers spend a great deal of time and money on research so that you can purchase the right finish for the right job.

Also the manufacturer knows how his product should best be used and the instructions are always on the outside of the can. Follow these. If a certain method of thinning is prescribed don't deviate from the suggested method, or you may end up with an unsatisfactory job which will be your fault, and not due to faulty paint.

Yes, paint can help you a great deal with your spring cleaning. Besides beautifying and preserving your possessions, it makes your housework easier every day in the year and protects the health of your family by facilitating perfect cleanliness.

Plan your spring cleaning carefully. Work awhile, rest awhile and let your paint brush make your home more pleasant and more convenient.

Trash Clearing Seeders On the Prairies

Controlling soil erosion on the Canadian prairies with trash cover has been hampered somewhat by the inconveniences sometimes caused by seeding into trash seed beds with standard seeding mechanisms. This apparent need for new seeders to simplify operations has been, partially met through the ingenuity of Canadian farmers and by the development of the one-way seeder attachment. Recently, seeder box attachments for blade cultivators have been developed and the hoe drill has been revised to increase its trash clearance.

These seeding mechanisms have been studied at the Experimental Station at Lethbridge. The results with these seeders have been equally as good as with standard drills provided certain precautions are taken in their use, states D. T. Anderson, Machinery Specialist at the Canada Experimental Station, Lethbridge, Alberta.

The blade cultivator with the seeder box attachment must be carefully adjusted for depth and the depth must be consistently maintained. Seed beds should be prepared by shallow tillage to facilitate the operation of the blade seeder. Single operation seeding has been satisfactory but under

very moist conditions a supplementary operation may be necessary to control weeds.

The hoe or hoe drill has been revised to increase its trash clearance. Under conditions of very heavy trash it may be advisable to utilize some means of breaking up the stubble. This may be done during seed bed preparation or by using a trash mat or self-cleaning harrow immediately before seeding. These latter machines operate best in dry, brittle stubble.

Many operators have failed to take advantage of the full trash capacity of standard drills. The one-way disk seeder has been used successfully to stubble-in fields that produced forty bushels of wheat the previous year. The disks must be sharp and a good subsurface packer must be used. The one-way disk has been used to prepare a seed bed on forty bushel stubble for the press drill. The use of a packer ahead of the drill provides firm conditions for the furrow openers and eliminates most of the dragging and plugging associated with drilling into loose trashy seed beds.

Workmanlike seeding operations are a pleasure to most operators. The pleasure is enhanced by the knowledge that the operation has been carried out so as to maintain good trash protection against soil erosion.

Spare moments are the gold dust of time;—of all the portions of our life, the spare minutes are the most fruitful in good or evil.

QUALITY SEED is the first step in assuring a good crop. Naturally, other factors are important, but without seed that is high in germination, free of weeds, and the ability to produce bred into it, the crop will be lower in yield and grade than you have a right to expect.

Due to the bad weather last fall, you would be well advised to check your seed supply both for germination and moisture, more carefully than ever before.

We have a limited supply of the following varieties:

Prices effective April 16, 1952

Mr. Farmer: Fuel is surer—safer—handier if you use a FARM STORAGE TANK

You'll find this Farm Storage Tank is a real help to you every day. Here's how... here's why...

SURER—Large capacity means fuel for your equipment when you need it. Less chance of running short.

SAFER—Set up outdoors, away from buildings. Less danger of fire.

HANDIER—There it is, ready—the nozzle as convenient as a gas-line pump. Less waste—less work.

CLEANER—Sealed against dirt and water getting into fuel—then into engine. Less chance of having to lay up equipment.

The McColl-Frontenac company who serves you will be glad to give you all information as to prices and delivery. Tanks available with one or two compartments.

WEED CONTROL THAT WORKS!

INVESTMENT PAID DIVIDENDS

Mr. G. C. Loe, Parkland, says: "I sprayed over 600 acres in 1950 using SHELL 'ESTER' WEED-KILL. The result proved to me that it eliminated the susceptible weeds in barley, oats, and wheat. Most years it is important to get your crop off when it is ready. If you have weeds that mature late in the fall 2,4-D will eradicate these to allow you to combine. I also have a recleaner on my combine and always bag the weed seeds. This year I found no evidence of the weed seeds in the cleanings."

Yes—it really works in Alberta—and right through the west, users of Shell Weedkill 2,4-D are reporting outstanding results. There are reports of increased yields up to 20 bushels an acre!

See your Cockshutt Dealer today about your weed problems. Get Shell Weedkill and get results! Find out just what Shell Weedkill can do for your crops—the dosage needed and whether Amine or Ester is recommended.

Shell Weedkill 2,4-D is available in one and five gallon cans at your local Cockshutt Dealer's.

District News

EASTWAY

Mr. and Mrs. Martin McInenly are being congratulated on the birth of a son, Roger Basil Francis, born April 30.

The district extends congratulations to Mr. and Mrs. Chester Marshall of Vulcan, formerly of this district, on the birth of a daughter, Donna Jean.

Mr. and Mrs. Percy McInenly and family have returned to this district from Field, B.C. Mr. McInenly has taken employment with the County of Vulcan.

Patsy Laycraft had the misfortune to injure her foot last week, but is able to be about.

Mrs. Doris Sutor entertained several friends on the afternoon of April 24.

Harry Burgess is helping Bob Hill harvest during Hurley's absence.

On Sunday, May 4, Frank McInenly celebrated his 72nd birthday in the Vulcan hospital where he has been a patient for some time.

Mrs. Anna Laughlin and Mrs. Yvonne Hellevang entertained a large group of neighbors on the afternoon of April 25.

A novel sight on May 5 was the large herd of cattle being moved through this district from Hih River to Queenstown. The herd, belonging to the Nelson family of Queenstown, consisted of 460 head of cattle and 90 young calves. They spent Monday night at the Hank Willard farm.

ARMADA

Mr. and Mrs. C. Boe have arrived home from an extended trip to the West Coast.

Leo Herman of Calgary is visiting at the home of his son and daughter-in-law, Mr. and Mrs. O. Herman during the busy spring season.

Mr. and Mrs. W. Hanna of Vulcan have been spending the last week or so on their farm in the district.

Leonard McCarthy of Vauxhall is employed on the M. Magnuson farm.

Mrs. H. Birkeness was able to return to her home after a brief stay in the Vulcan hospital.

Mr. and Mrs. W. R. Howell and sons, Glen and Kenny of Lethbridge were weekend visitors at the home of Mr. and Mrs. I. Kunkel.

Mr. and Mrs. Doug Buchanan and Brenda of Taber were Sunday guests of Mr. and Mrs. H. Howell.

Mr. and Mrs. M. Bakken and daughter Mona of Champion visited the home of Mr. and Mrs. A. Marks Sunday.

H. Howell was a business visitor to Lethbridge Saturday. He was also a Lethbridge visitor on the following Tuesday and was accompanied by his niece, Miss Jeanette Kunkel.

Miss Marlo Verigin was a week end guest at the home of Mr. and Mrs. D. Crabb.

Miss Clara Magnuson of Calgary was a guest at the home of her parents, Mr. and Mrs. I. Magnuson.

Mrs. W. Stewart and children of Vulcan visited the A. Marks home Tuesday and Wednesday.

Mr. and Mrs. M. Magella and family spent the weekend in Lethbridge.

Mrs. R. Valle and girls have returned to their home in Armada after a lengthy stay in Calgary. The baby is reported to be progressing very satisfactory now.

Murray Paulson, 10 month old son of Mr. and Mrs. Del Paulson had the misfortune to break off one of his front teeth when he fell on a pop bottle. He had just cut his tooth a short time before the accident.

Several citizens of Armada have been stricken with the flu and colds in the past while.

Sympathy is extended to the Root family on the death of their father and grandfather, Jasper Root from their many friends in the district.

A number of the young people of the district attended the Flasherman's Ball held in Lomond last Friday.

The National Film Board showed several films Wednesday afternoon in the community hall for the benefit of the school children and those adults who wanted to attend.

Cecil Rogers and Mrs. Urdal of Calgary visited the J. Urdal home Sunday. On their return they were accompanied by Mrs. Rog-

ers and Brian who have been visiting in Armada.

Friends of Mr. and Mrs. Hagg of Enchant will be sorry to learn their son Joey is a victim of pneumonia and is confined to the Vulcan hospital.

Mr. and Mrs. Beagle and family and Mr. and Mrs. F. Stokes and children were visitors to Lethbridge Sunday. Mr. and Mrs. Bohnet and Bryan also spent the weekend in Lethbridge.

Since beef prices have taken a slight drop Mrs. Cow has come to the conclusion the only way to overcome this misfortune is to double the number of her offspring. Twin calves were recently born on the M. Magnuson farm.

KIRKCALDY

Friends of Miss Janet Ware are sorry to hear that she is confined to the local hospital. A speedy recovery is wished her.

Wentworth Brinton returned home last Saturday from the local hospital.

Miss Ethel Lewis of Ardenode, Alta. is visiting at the Spencer Lewis home.

Mrs. Jim O'Reilly and Bryon accompanied Mr. and Mrs. Otto Hagg to Calgary on Tuesday.

Mrs. Brinton Sr. of Calgary spent two days at the home of her son and daughter-in-law last week.

A correction in last week's news, the Boys' Club name should have read Kirkcaldy Livewires in place of Kirkcaldy Wildcats.

ENSIGN

Congratulations are being extended to Mr. and Mrs. Erwin Dougdale on the birth of a son on April 25 at the local hospital. Mrs. Dougdale was before her marriage Miss Dorothy Flebotte.

Friends in the district were deeply saddened to hear of the death of Mrs. Merle Shaffer of Calgary on April 24. Mr. and Mrs. Shaffer were former Ensign residents some five or six years ago. Funeral services were held in Calgary on Monday, April 28.

Mr. and Mrs. Curly Collision and family were Calgary visitors on Saturday last, where Mr. Collision was to undergo medical examination.

Mrs. Bill Turley held a recital and tea on Saturday, May 3, with all the mothers and grandmothers of her pupils being present. Everyone thoroughly enjoyed the afternoon.

Clarence Mote is at present confined to his home with a bad attack of the "flu". A speedy recovery is extended to him.

Mr. and Mrs. B. Brown, Mr. and Mrs. Geo. Flebotte, Mr. and Mrs. Ber Larsen and girls motored to Magrath on Sunday to visit at the home of Mr. and Mrs. Doug Loose.

Mrs. H. Brown of Okotoks was a visitor in the district on Monday.

Mr. and Mrs. A. McIntyre motored to Cardston on Monday to spend a few days. While there Mrs. McIntyre's father, Mr. Shaw will celebrate his 80th birthday.

Mr. and Mrs. Oakes Sr. of Calgary were visitors at the home of their son and daughter-in-law, Mr. and Mrs. F. Oakes. F. Oakes has been a patient in the local hospital for nearly three weeks.

Friends hope that he will soon be well enough to return to his home.

The Ensign Ladies Aid held their monthly meeting last week at the home of Mrs. G. Mooney.

Mrs. Bill Turley and Mrs. B. Brown were Lethbridge visitors on Monday.

Jack Williams and Henry Finlayson are now at home, helping with the harvesting and seeding, after having attended the University at Edmonton.

BRANT

Mr. and Mrs. Lyle Platt and family of Barnwell are spending a few weeks on their farm north of Brant. They will return to Barnwell when they have completed last year's harvesting, spring seeding.

Mrs. G. Kent and Donna left Friday for their home in Rossland, B.C., after spending two weeks in Brant with Mrs. Dorothy Pearson.

A fire started in the Brant school yard last Friday, and spread quickly to the Catholic church yard, and on the old ball diamond. It kept the pupils, teachers, and several men busy for about two hours before it was finally extin-

guished. There was a strong wind that day, which increased the danger to the Church. The hedge between the school and Church was quite badly burnt, and was likely killed.

Mr. and Mrs. Pat Gallagher accompanied by Mr. and Mrs. G. Ferguson, drove to Camrose Sunday, May 4, returning the same day. While there, Mrs. Gallagher visited her brother, who is in hospital due to injuries sustained in an oil well accident, a few weeks ago.

Hugh Nelson, accompanied a trucker from Didsbury down to Brant, on Monday, May 5th, and moved the rest of his furniture and other belongings.

Neils Jensen is operating the patrol, since Hugh Nelson moved away.

Bill Burley is hauling grain for Fletchers and Mrs. Don Pearson is helping in the store.

Mrs. McBrien is working in Gerry Ferguson's store.

With the object of promoting poultry farming in Greece, the Agricultural Bank has purchased from the United States 125 hatching machines as well as brooders of varying capacities.

Carmangay

Dennis Roemmele spent the weekend with Harold Hubka, the occasion being Harold's birthday.

Mrs. John McFarland and Mr. and Mrs. Ralph Leonard of Lethbridge, motored to Vancouver, Wash., to attend the funeral of their uncle, Joe Leonard.

Mr. and Mrs. H. Bowman and family motored to Calgary for the weekend. They were accompanied by Mrs. Geo. Davies who attended the Square Dance Festival in Calgary.

Mrs. Rene Burns, Mrs. F. Sibley and Mrs. Schafer are the delegates from the local Social Credit Group to attend the Nominating Convention held in Vulcan this week. Others also plan to attend the convention.

Visitors at the home of Mr. and Mrs. W. Gray included her brothers and sister, Mr. Oscar Johnson of Grand Prairie, Mr. and Mrs. Jpe Johnson of Calgary and Mrs. Sturgis of Calgary.

The Social Credit Group is sponsoring a Strawberry Social on Saturday, June 7 in the evening, in the Hotel Dining Room.

Mrs. Earl Smith accompanied by Mrs. Dick Davies motored to Lethbridge on Tuesday.

Mr. and Mrs. A. Fowler and daughter of Lethbridge were guests at the home of the latter's parents, Mr. and Mrs. Geo. Davies. Mr. Fowler has been attending University in Edmonton and they stopped off on their way home.

Mr. and Mrs. Chas. Johnson and Garry of Vancouver were guests at the home of the former's sister and brother-in-law, Mr. and Mrs. H. Fyckes.

Mr. Matt Leonard returned from Rochester, Minn., where he had undergone an eye operation at the Mayo Clinic. We are glad to state the operation was successful.

Miss Peggy Gray of Coalhurst spent last weekend with her parents, Mr. and Mrs. W. Gray.

Mrs. V. Weigand of Grand Prairie were guests at the home of Mr. and Mrs. Ted Ronney.

Mrs. Melvina Roemmele and Mrs. Rhoda Minty left for Edmonton on Wednesday to attend the Home and School Convention held in the city. They are the delegates from the local group.

Mrs. Don Bodn accompanied by Mrs. H. S. Parker were Sunday visitors at the home of Mrs. O. L. Taylor of Claresholm.

Mr. and Mrs. Alec MacMillan were Calgary visitors last week end.

Mr. J. Letal was a business visitor to Calgary on Monday.

Miss Rosemarie MacMillan who completed her first year University at Mount Royal College, Calgary, is now enjoying a short holiday at her home.

Miss B. Hammer returned to her school after an absence of two weeks due to sickness.

About 40 people of Carmangay and district attended the Physical Training demonstration in Barons on Thursday evening. The classes are under the training of Mrs. Victor Schneider.

Jack Taylor of Calgary, a former resident of Carmangay, was a visitor in town this week. Mr. Taylor used to operate a large threshing outfit.

Bricks and material have been unloaded at the site for the new school. Construction will begin in the near future.

Mr. and Mrs. Geo. Cairns and son of Calgary were weekend guests at the home of the latter's mother, Mrs. H. S. Parker.

Mr. and Mrs. Ed Stettner and Larry were Lethbridge visitors last Thursday.

Congratulations to Mr. and Mrs. Mack Baldwin on the birth of a son on May 1st in the local hospital.

Patients in the local hospital this last week included, Mrs. H. Smith, Mrs. Chas. Nelson, Mrs. G. Stewart and Mr. Hildebrandt all of Champion and Mrs. Moore, Mrs. W. Ruggles, Mrs. M. Wennes, Mrs. V. Teskey, Mrs. F. Cross, H. Law Douglas Giggle and Miss Jacobson of Barons.

Changes in Church Services in the United church: Sunday School at 11 a.m., Church services at 7:30 p.m. Special Mother's Day services May 11. Baptismal Services also.

Birthday Party
Mrs. J. Hauser entertained 14 school friends on Friday afternoon in honor of her son Morris's 7th birthday.

Games were enjoyed and a delicious lunch enjoyed out under the trees.

Morris was presented with several gifts and a nicely decorated birthday cake with surprises in it was enjoyed by all.

Women's Association
Nineteen members of the Women's Association met in the Sunday School Room for their May meeting last Friday.

Plans were completed for the Mother's Day Program to be held in the Church on May 9. All mothers are cordially invited to attend. Members of the Barons and Champion Women's Associations have been invited to attend. Two new members joined, Mrs. Dora Bond and Mrs. W. Ohler. This brings their membership up to 25.

The lunch was served in the basement with Mrs. Melvina Roemmele, Mrs. A. Wynn and Mrs. R. Church as hostesses.

The next meeting on June 6th will also be held in the Church when Mrs. Peters of Granum will speak on Christian Citizenship. This is open to the public, all visitors will be welcome.

Social Credit Group

Mrs. Doreen Smith was hostess to the members of the Social Credit Group when 11 members and one visitor were present. Plans were made for the Strawberry Social to be held in the Hotel Dining room on the evening of June 7th.

Delegates were chosen to attend the nominating convention to be held at Vulcan. The raffle was won by Mrs. D. H. Russell. Two new members joined Mrs. F. Boner and Mrs. D. H. Russell. Some bazaar items were handed in. The hostess then served a dainty lunch.

Maintaining Trash Cover

By C. R. Sterling
Supervisor, Soil Conservation and Weed Control
Alberta Department of Agriculture

Plenty of moisture in 1951 meant straw in abundance in nearly every field in Alberta. Some farmers are inclined to take the easy way out and burn the straw and stubble from their fields before seeding. The wise farmer faces the problem and makes an effort to incorporate the straw and stubble into the soil. He knows that trash cover is valuable.

Straw and stubble put into the soil prevents soil drifting and water erosion. To appreciate its value, we have only to consider the soil drifting conditions that have occurred in the northern part of our province in the last few years. In every case drifting fields were either bare summerfallow or fields where the soil had been so completely pulverized that no trash cover remained. Fields that drift with the wind this spring will not be those where a good trash cover has been maintained. High winds are already providing a forceful reminder that bare soils drift readily. Fields protected by trash cover are weathering the gales successfully.

Trash cover prevents excessive evaporation and soil moisture loss. The difference will be quickly seen when the next dry spell occurs. Trash cover also prevents erosion damage from heavy, sharp rains, since the trash allows more moisture to be absorbed in a given length of time. Important too, is the fertilizing affect of trash cover. Fifteen hundred pounds of straw on an acre will produce, in addition to other fertilizing elements, approximately 24 lbs. of nitrogen which on the market is worth \$2.83.

How to do the Job

Field demonstrations conducted this spring by the Alberta Department of Agriculture in the Fort Saskatchewan, Vegreville and Morinville districts have shown that trash cover can be maintained and a good job done. All the fields chosen for these demonstrations had a very heavy straw cover, the field in the Morinville area having produced 150 bushels of oats to the acre in 1951. Farmers who made their land available for this project were Sandy Melville, Fort Saskatchewan; Jack Lowe, Vegreville; and Maurice Teller, Morinville.

For effective working of trash cover the straw must be spread evenly over the field. Fields left in windrows in 1951 are proving the greatest problem this year and

are showing clearly the advantages of using a straw spreader on the combine at all times. Straw in windrows, however, can be effectively spread with an oscillating harrower. If the straw is very heavy, the middle sized ring may have to be removed from the harrower, leaving only the outer and inner rings operating.

Straw may also be spread by using wide shovel type cultivators—cultivators with 30" shovels or larger. These cultivators should be driven diagonally across the windrows. They will not only scatter the straw but will prepare the way for rolling machinery to cut and incorporate the straw into the soil surface. Once the straw is scattered, a sharp tiller will do a good job of cutting the straw and working it into the soil surface. The tiller must be sharp. All tillers were sharpened during the demonstrations mentioned and the difference between the dull and sharp tiller clearly indicated.

The wide type discer will do a reasonably good job but seems to take second place to the tiller from the standpoint of incorporating heavy trash cover. The discer too must be sharp and in some cases the rear wheel weighted down. Blade type cultivators did a good job at all three demonstrations.

At the Morinville demonstration where the straw was heaviest, a double disc drill was used to seed through the trash. It was quite evident that such a machine was quite capable of seeding through heavy trash with the seed being placed at a proper depth for good germination.

These demonstrations clearly indicated that even the heaviest trash can be saved, and that it can be worked into the surface. Those who will follow this practice can rest assured that their land will not drift and that better soil moisture conditions will prevail throughout the growing season.

Almost all English sparrows in Canada are descended from eight pairs imported from England in 1850.

Choose a FAIRBANKS-MORSE WATER SYSTEM

There's a model for every need

Model 425M-30
Fairbanks-Morse
Shallow Well Water
System. Capacity 400
gallons per hour. Self-
oiling, Double-acting,
Self-priming.

F.M. Systems are backed by a company with over 120 years of experience in the building of mechanical equipment.

Every F.M. pump carries a top showing actual delivery of water to the tank, certified by an independent laboratory.

Whether you need a system to supply the needs of a large farm, or to provide enough for household use in a small cottage, there's a Fairbanks-Morse Water System for the purpose. Every unit, whether for deep well or shallow well use, is built to give a lifetime of economical, trouble-free service. Most systems come fully assembled for easy, low-cost installation. Let us give you full details.

The week of

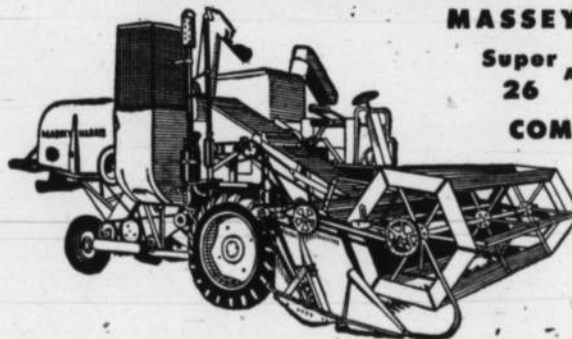

Monday, May 12 to Monday, May 19
has been proclaimed as

CLEAN-UP WEEK

Business places and householders are requested to have garbage and ashes removed from their premises. Failure to do so will result in this work being done by the Village and the property-owner will be charged with the costs.

By Order,
Olive Howerton, Sec.-Treas.
VILLAGE OF CHAMPION

COMBINE IN COMFORT AND SAVE MORE GRAIN

MASSEY-HARRIS

Super 26 AND Super 27
COMBINES

Engineered to make harvesting easier and faster than ever... and to thresh and save every bushel you can grow.

Here's what

BALANCED SEPARATION MEANS

Each unit is correctly geared to all other parts. You can't overload or clog. Balanced separation regulates... controls the flow of materials... straw and grain... through each and every step of combining. No stops... no waste. Faster... cleaner... more economical combining.

Different in Size Only

The Super 27 is the biggest capacity combine on wheels... handles up to 70 acres daily... 16-foot cut (available with 14-foot and 12-foot tables). The Super 26 has all the advantages of its bigger brother. Does up to 50 acres daily... 12-foot cut (available with 10-foot or 8 1/2-foot tables).

Early Orders Assure Early Delivery
Come in and get complete information.

THIS IS WHAT YOU GAIN:

1. Balanced separation (see right).
2. Multiple speed drive (36 forward speeds).
3. Improved cylinder-and-beater design.
4. Longer, wider straw-walkers.
5. Extra large wheels.
6. Lighter and better distribution of weight.

HERE'S WHAT IT ADDS UP TO:

1. Faster harvesting... more acres per day.
2. Cleaner harvesting... more grain and cleaner grain.
3. Easier harvesting... less strain on the operator.

Champion

Mrs. Harry Smith has returned home from the hospital at Carmangay.

Mr. and Mrs. J. Schierman of Calgary were house guests at the homes of Mr. and Mrs. Jake Fritzler and Mr. and Mrs. George Hartung for several days last week.

Bonnie Smith, daughter of Mr. and Mrs. Walter Smith, is a patient in the Vulcan Hospital, suffering from rheumatic fever.

Mrs. Wm. Vickers spent several days this week visiting relatives in Calgary.

Mrs. Gordon Stewart is a patient in the Carmanay Hospital.

Mr. and Mrs. Chal Matlock were weekend visitors in town.

Mr. and Mrs. R. Brunt of Calgary have been guests at the home of Mr. and Mrs. Adam Schmidt.

Mr. and Mrs. Alex Hartung were Calgary visitors last Sunday. Those attending the Catechism Class conducted by Rev. A. Roth at the Evangelical Church were: Donnie Schmidt, Lloyd Hiltz, Sophie Kaiser, Irene and Alfred Hartung.

J. G. Steeves has purchased a Victory Blinde Seeder, which works on the principle of blowing the seed into the earth. The seed is forced by air from the seed box through tubes and behind the blade into the ground. It is the first time an implement of this kind has been used in the district.

It has been tested at Experimental Stations and has proved a very satisfactory method of drilling on trash covered fields.

Rev. S. R. Schierman of Warner visited at the homes of Mr. and Mrs. Jake Fritzler and Mr. and Mrs. George Hartung for several days last week.

Ed Griffin was a visitor in town last week.

Miss Norma Jane Warren has been confined to her home with the measles.

Mrs. D. Stewart and small son

Gary of Lethbridge is a visitor at the home of her parents, Mr. and Mrs. Cliff Miller this week.

Miss Margaret Miller and Miss Joyce Bardell of Lethbridge were Sunday visitors at the home of Mr. and Mrs. Cliff Miller.

Mrs. Bessie Siler and Mrs. Libby Latiff returned home on Sunday, after a trip to Eastern Canada, where Mrs. Siler took delivery of a Power-Glide Chevrolet.

After picking up the car they visited Mrs. Latiff's son-in-law and daughter, Mr. and Mrs. Richard Phelps in Washington, D.C.

Mr. and Mrs. George Hartung entertained 18 guests at dinner on Sunday.

Mr. and Mrs. J. J. Secretan of Whiskey Gap and Arthur Secretan of Lethbridge were weekend guests at the home of Mr. and Mrs. T. Barry.

The Companies receiving the contracts for materials to be used in the Champion Waterworks Project are Crane Limited, National Iron Corporation and Terminal City Iron Works Ltd.

Sylvia Matlock has returned from the Lethbridge Hospital and is convalescing at her home.

Mr. and Mrs. Chauncey Tuttle of Armada spent the weekend at the home of Mr. and Mrs. Robt. Stewart.

Miss Ida Buehler spent a few days last week at her home. Miss Buehler has accepted a position at Trochu.

ENGAGEMENT ANNOUNCED
Mr. and Mrs. Gordon Caley of North Bay, Ontario, announce the engagement of their daughter Patricia Muriel to Mr. Farland M. Dawson, son of Rev. and Mrs. Peter Dawson, Champion, Alta. The marriage will take place on Saturday, May 24th at 5 o'clock in Laurier avenue United Church, North Bay.

With The District Agriculturist
Hugh Michael

Right From the Grass Roots
The following press release was recently released from the Lethbridge Experimental Station. In view of the fact that overgrazing is evident in the foothills area, we consider this release to be especially applicable at this time.

During this time of year, noticeable difference can be seen in the amount of growth of different grasses. Crested wheat grass is one of our earliest, and there is sufficient green growth for pasturing at the present time. Bromus grass is not quite so early, while some other grasses are considerably later.

These differences are due to the different growth habits of the various grasses. It has been repeatedly shown at the Lethbridge Experimental Station that for any one species of grass, such as bromus or crested wheat grass, early growth can be increased or decreased depending on the use the season before. Proper management ensures ample food storage in the roots to provide early, vigorous spring growth.

The terms "fat grass" or "starved grass" are now being applied to vegetation, just as it is applied to stock. As the green leaves manufacture food, the root system develops to supply the needed water.

In this root system is stored the reserve "fat". If the leaves or manufacturing area are continually grazed or cropped off, the roots become starved and are greatly reduced. Under such conditions, the plant is less capable of surviving severe winters or resisting drought and diseases, and is certainly not in a position to make an early spring growth. Fat grasses furnish feed from two to three weeks earlier than starved grass, throughout the season it greatly outproduces the starved grass.

Continuous overgrazing is the most damaging factor for maintaining a good stand of grass. By overgrazing the "fat" reserves are used up, the plant becomes weakened and production drops off. Good management on both range and pasture lands allows for maximum use without overgrazing.

Flax Varieties
Three varieties of flax are recommended by the Alberta Varietal Zonation Committee for commercial production in southern Alberta in 1952. On the Brown Soils in southeastern Alberta, Royal is still the best variety. On the Dark Brown Soils in the central portion of southern Alberta, Royal and Dakota are recommended. Redwing is the most suitable variety for the Black Soils of southwestern Alberta. For the irrigated areas, Dakota is the best of the established varieties.

Royal is a late high-yielding variety developed at the University of Saskatchewan. It is moderately resistant to rust and wilt.

It is high in oil content but the oil is only fair in quality. Royal is the best variety of flax under dry conditions and it also yields very well in areas of relatively high rainfall and under irrigation.

However, it does not mature uniformly and is consequently difficult to harvest on irrigated land.

Dakota is a relatively new variety introduced from the United States. It is resistant to many races of rust but unfortunately is susceptible to those prevailing at present. It is resistant to wilt. It matures moderately early and fairly uniformly. Dakota yields about the same as Royal under irrigation, but is preferable because of its more uniform maturity. Dakota is lower than Royal in oil content.

Redwing is an early variety which is best adapted to areas where earliness is essential. Redwing is susceptible to rust and is moderately resistant to wilt. It is low in oil content but yields oil of very high quality. Redwing is lower in yield than Royal on the open plains, but is equal to Royal in the foothills.

Preventing Water Erosion
G. R. Sterling, Supervisor of Soil Conservation, Alberta Department of Agriculture, reports that Alberta farmers are becoming increasingly interested in grassing down water courses in their fields to prevent erosion. Now is the time, he says, to check your fields for those small rills which are the first signs of gully ing. These rills and gullies are a sure indication that soil lacks fibre and that erosion will increase year by year unless action is taken to prevent it.

Wind erosion, with its dust clouds and banks of drifted soil, becomes apparent immediately, but damage from water erosion in its early stages is much less noticeable. In spite of this, damage from water erosion in Alberta is even greater than that caused by wind erosion.

Don't cultivate over these rills and small gullies and forget about them, advises Mr. Sterling. Seed them down to a grass-legume mixture. Locate your grass and legume seed now so that water courses or perhaps whole fields containing a large number of rills can be sown during the present season. Information about sources of forage crop seed can be obtained from district agriculturists.

ACCIDENT FUND SHOWS DEFICIT
A deficit of more than \$33,000 on the operations of the Unsatisfied Judgment Fund from April 1 to March 31, 1952, has reduced the fund to \$344,722. On April 1, 1951, the fund totalled \$378,647.

During 1951-52, Alberta motorists paid \$252,898 into the fund while \$9,907 was recovered from previous judgments. Total dis-

NEW EXPERIMENTAL CHRYSLER CONVERTIBLE C-200

Chrysler Corporation's experimental C-200 convertible, designed in Detroit by Chrysler engineers and built in Italy, arrived in New York City from Europe, aboard the Liner, S.S. Constitution. The picture shows the convertible being lowered to the dock after a fast Trans-Atlantic crossing.

The C-200 convertible was conceived and designed by Chrysler Engineers in Detroit as a further experiment to explore the blending of sports car styling with practical automobile design and engineering features.

European influence is reflected in the longer hood, and large, fully exposed wire wheels.

District News**LOMOND**

Mr. and Mrs. Jergen Henrickson and family were visitors in Calgary last week.

Friends will be pleased to learn that Mr. G. Zambaldi was able to return home last Friday. Mr. Zambaldi was a patient in the Vulcan Hospital.

The baseball tournament got underway Sunday with the opening game being played in Lomond. Lomond lost the game to Sundial. Score being 5-3 in Sundial's favor.

The Lomond Junior Baseball team won the game they played with Sundial on Sunday by a score of 6-0. Guess they will make the senior team sit up and take notice.

Mr. and Mrs. Eldie Leback of Champion were visitors in Lomond on Sunday.

Mr. and Mrs. George Arrowsmith were business visitors in Lethbridge on Monday.

The regular monthly meeting of the Recreation Club has been postponed until further notice.

Friends will be sorry to learn that Miss E. Bell is a patient in the Vulcan Hospital. All wish her a speedy recovery.

Miss Jean McLeod of Calgary recently spent a few days with her parents, Mr. and Mrs. Wm. McLeod. Miss McLeod was recuperating from a bout of flu.

Mrs. Roy Jansen accompanied by her mother, Mrs. J. Soper took a plane from Lethbridge to Montana on Saturday last week when Mrs. Jansen received word that her husband had been seriously hurt in an accident. However, word has been received that he is not badly hurt and will soon be up and around again.

Friends will be sorry to learn that Mrs. Richard Teasdale is a patient in the Vulcan Hospital.

Mr. and Mrs. Le Roy Woodworth are spending two weeks visiting in Red Deer, Alta.

Doug Walker was a business visitor in Calgary on Monday. Mr. Walker has the cellar dug for the new cafe which he is building in Lomond.

Jasper E. Root

Jasper Edward Root, a resident of Coleman for the past nine-years passed away at the family home,

Tuesday, following a brief illness.

Deceased was born in Payette, Iowa, on June 25th, 1874 and migrated to Canada in 1916 settling in the Lomond area where he homesteaded until 1924 when he became employed with the Canada Land and Irrigation Company. While in the employ of this company he sustained a back injury and since then was unemployed. In 1932 the family to Coleman where Mrs. Root operated a boarding house for a number of years.

He was predeceased by a son Mayne at Travers in 1942. Surviving are his wife, Mrs. Lily Root of Coleman; six sons, Edward, Ralph, Glen of Lomond, Ray and Gordon of Travers and Jack of Coleman; four daughters, Mrs. E. W. Fredrick of Havre, Mont., Nona at Calgary, Mrs. Viola Rhodes of Champion and Mrs. Jessie McLeod of Travers. Twenty six grandchildren and 11 great-grandchildren.

The Rev. R. Morrison of Coleman conducted services in the United Church Thursday after which the remains were sent to Lomond. Funeral services were held in the Lomond Community Hall, Friday afternoon at 2 o'clock with the Rev. Peter Dawson officiating. Pallbearers were his six sons, Edward, Ralph, Glen, Ray, Gordon and Jack. Interment was made in the Lomond Cemetery.

ARROWWOOD

Mr. and Mrs. Delbert Duncan spent the weekend with Mr. and Mrs. R. Oldfield and also visited with other members of Mr. Duncan's family.

Miss Carolyn Dumka celebrated her seventh birthday by having all the little girls in her room at school to her home for a party.

Mr. and Mrs. P. Brown and family spent Sunday last at Mr. Brown's sisters, Mr. and Mrs. M. Magnuson at Armada.

The United Church W.A. held their regular meeting at the home of Mrs. F. C. House. Mrs. R. F. Williams gave a book review on the story of Lot's wife. Also they discussed bazaar plans and Mrs. Neal Dumka conducted the devotionals. The hostess Mrs. Dumka, Mrs. Benson and Mrs. F. C. House served a lovely lunch.

Mrs. C. Arney and Miss V. Caw-

ley, Mr. W. McDaniel and Fred Oberholtzer all journeyed to Irricana on Sunday to attend a district meeting for the Brethren church.

Several of the ladies in the district have gone to a Tupperware Tea lately. Mrs. M. MacIntyre, Mrs. H. Ingram, Mrs. G. Newby all have had teas and Mrs. John Irwin displayed the different items of Tupperware.

Ralph Seeley had the misfortune of catching his fingers in an electric saw last week. He lost the end of one finger and cut and bruised his hand.

Mr. and Mrs. Martin McInley had a lovely baby boy on April 30. Mr. Frank McInley celebrated his birthday in the Vulcan Hospital on May 4 when the nurses presented him with a lovely birthday cake.

Mrs. R. Eyres is in Calgary for a few days taking treatments and Mr. McDaniels is teaching her class at school during her absence.

Many an orator puts more zest into his gestures than he does into his speech.

Brief Items of Local Interest

Mr. and Mrs. R. W. Simington left the latter part of the week for an extended visit to Trail, and other points in B.C.

Mr. and Mrs. Herb Tulloch of Calgary were Sunday guests at the Stan Scales' home. On their return to the city they were accompanied by little Kenny Scales, who will visit with them during his parents' absence in the U.S.

Mr. and Mrs. L. Ritland were business visitors to Lethbridge on Monday.

David McIntyre was a Calgary weekend visitor.

Friends of Miss Lizzie Fulton will regret to learn she is again confined to the local hospital.

Miss Elinor Hyslop of Calgary spent the weekend with her mother and brother here.

K. Roy McLean, Optometrist, of Calgary, will be in Vulcan at King's Drug Store on Monday, May 12, from 11 a.m. to 5:30 p.m. Consult Mr. McLean in his Calgary office, 1014 Greyhound Bldg., daily except Monday.

George Monkman of Calgary was a business visitor to Vulcan the first of the week.

Mrs. Nelsie Robertson was a Calgary visitor last week.

Congratulations are being extended to Mr. and Mrs. Bobby Loose on the birth of a daughter, at the local hospital, Wednesday, April 30.

Mr. and Mrs. J. P. Methel of Calgary were recent guests at the Bert Methel home.

Mrs. Lila McAllister of Lethbridge visited with relatives here on Sunday.

Friends of Mrs. Cecil Matlock will be sorry to learn that she is a patient in the local hospital.

Pte. Dale Sproule of Currie Barracks, Calgary, spent a "48" with his mother, Mrs. B. Dann at the weekend.

Mr. and Mrs. Chester Marshall are receiving congratulations on the birth of a daughter, Donna Jean, at the Vulcan hospital, Friday, May 2nd.

Eddie Robertson was a weekend guest of Wayne Cutforth.

Mr. and Mrs. A. Sales accompanied by Jerry LaRoche motored to Calgary Monday afternoon, where they met Flight Cadet Ken McIntyre, who was enroute to summer training at Aymer, Ont., from his home at Vancouver, B.C.

While in the city Mr. and Mrs. Sales and Jerry were guests at the home of Mr. and Mrs. S. Dingley.

Friends of Miss Nettie Ware will be sorry to learn she is confined to the local hospital.

Mrs. Agnes McKay and Mrs. Lauren Horne and two small sons, accompanied by Mr. and Mrs. Jack Marshall, were Calgary visitors Sunday, where they went to bid farewell to relatives who were returning to their home at Santa Monica, Cal.

Mr. and Mrs. Don Buehler and daughter, Mrs. Joan Mensinger, were recent Calgary visitors.

John Hunter attended a Scout Commissioners' meeting at Lethbridge on Sunday.

Mr. and Mrs. Don Stuart and two sons of Calgary spent the weekend, at the Cecil Matlock home.

Bob Hill, who has been attending the University of Alberta, has returned to his home here, and is assisting with farm operations with his father.

Mr. and Mrs. Lundy Findlay and children were Monday Calgary visitors.

Friends of Mrs. Norman Scotney will be sorry to learn that she underwent a major operation in a Calgary hospital at the weekend.

Miss Dorcas Johnson of Calgary was a weekend visitor at the home of Mr. and Mrs. Merle Smith.

Mrs. Gus Spaeth of Calgary spent a few days recently at the home of her son-in-law and daughter, Mr. and Mrs. Howard Spaeth.

Richard Hilz of Calgary spent the weekend at the home of his brother and sister-in-law, Mr. and Mrs. Bill Hilz Jr.

Arthur Chell is renewing acquaintances in Vulcan this week.

Friends of Mr. and Mrs. Erwin Schultz will be sorry to know that their baby daughter has been a patient in the local hospital.

Miss Betty Hansell and Miss Patsy Robertson were weekend visitors to Calgary.

On the eve of their departure for Creston, B.C., where they will make their future home, Mr. and Mrs. E. Plourd were honored with a community farewell party at the Red Cross school, recently. A pleasant social evening was spent in dancing and presentation of a program of songs and dance numbers.

Alvin Jacobson, on behalf of the community, presented Mr. and Mrs. Plourd, who had lived for many years in the Red Cross district, with a chest of silver, as a token of esteem, and expressed the good wishes of all for success and happiness in their new home. The ladies present served a delicious lunch to bring the happy evening to a close.

Mr. and Mrs. Charles Ottewill accompanied Mr. and Mrs. Bob Gooder of Lethbridge to Cardston on Friday, where they attended the wedding of a niece.

Mrs. C. Brofick is spending a few days in Calgary this week.

Friends of Earl Erickson will be sorry to learn he is at present confined to the local hospital.

Mr. and Mrs. Stan Scales and Mr. and Mrs. Keith Elder left on Tuesday to attend a Lions district convention in Montana.

Dr. and Mrs. A. D. Tompkins are now in Seattle, where Dr. Tompkins is attending a refresher course on gastro-intestinal diseases at the University of Washington.

The Lions are sponsoring a work bee for the cemetery at 7 p.m. on Friday, May 9, and all interested are asked to attend.

At 3:00 p.m. Mountain Standard Time on Saturday, May-10, there will be a C.B.C. national broadcast entitled "The City Within."

This is a special broadcast about a hospital and is timed to fit in with the National Hospital Day, May 12.

Miss Beulah Wiersma, Francis Anderson and Master Larry Grimrud, all of Ralston, were long weekend visitors at the former's home recently.

Guests at the home of Mr. and Mrs. B. Somerville on Sunday were Miss Yvonne Somerville and Miss Lillian Hayes of Mossleigh and Wesley and Grace Somerville of Calgary.

The Alberta Bible College Girls Quartette will appear at the Vulcan Church of Christ on Sunday night, May 11.

Mrs. Maud Snow is spending a month in Lethbridge taking care of her sister's home while the latter and her husband are visiting their son, Prof. Elwood Strigam and family of Guelph, Ont.

Friends of Jimmie Wiersma, who is now in the R.C.A.F. are requested to write to him as he would

enjoy hearing from the boys in the Cadets and Reserve Army unit. His address is available from Mrs. Wiersma or from John Hunter, Jr.

Calvin Snow of Medicine Hat was a weekend visitor in the district. He was accompanied back by his wife and children, who had been visiting with friends here for the past three weeks.

RUMORS

Many a good man ruined,
A man or a woman's name,
By someone repeating a rumor,
Not a word of it true.

If you ever hear such a rumor,
Say "It's a lie" and forget it,
And never repeat it again.

—Author Unknown.

Old Dobbin had his faults, but no one could siphon the oats out of his stomach.

The temperature of the human body was formerly used as the base point for thermometers.

Fastball

All those interested in playing Fastball are asked to report at the diamond on

Sunday, May 11th
at 2.00 p.m.
